Technical Assistance on Data Collection--Technical Assistance
Center for Data Collection, Analysis, and Use for Accountability in
Special Education and Early Intervention

AGENCY: Office of Special Education and Rehabilitative Services,
Department of Education.

ACTION: Notice of final priority and eligibility requirements.

SUMMARY: The Assistant Secretary for Special Education and
Rehabilitative Services announces a funding priority and
eligibility requirements under the Technical Assistance on State
Data Collection program authorized under the Individuals with
Disabilities Education Act (IDEA). The Assistant Secretary may use
the priority and eligibility requirements for competitions in
fiscal year (FY) 2007 and later years. We take this action to
focus attention on an identified national need to provide technical
assistance to improve the capacity of States to meet data
collection requirements relating to their implementation of section
616 of the IDEA.

EFFECTIVE DATE: This priority is effective August 6, 2007.

FOR FURTHER INFORMATION CONTACT: Scott Campbell Brown, U.S.
Department of Education, 400 Maryland Avenue, SW., room 4076,

Potomac Center Plaza, Washington, DC 20202-2700. Telephone: (202) 245-7282 or via Internet:

SUPPLEMENTARY INFORMATION:

We published a notice of proposed priority and eligibility requirements (NPP) for this program in the Federal Register on January 26, 2007 (72 FR 3809). Under the Technical Assistance on State Data Collection program established under section 616(i)(2) of the IDEA, we make awards to provide technical assistance to improve the capacity of States to meet the section 616 data collection requirements. In the NPP, we described our rationale for the priority and eligibility requirements proposed. This notice of final priority and eligibility requirements contains no changes from the NPP.

Analysis of Comments and Changes

In response to the Secretary's invitation in the NPP, four parties submitted comments on the proposed priority. An analysis

of the comments follows. We group major issues according to subject. Generally, we do not address technical and other minor and suggested changes that we are not allowed to make under the applicable statutory authority.

Comment: Two commenters requested that the priority include activities that would improve a State's use of data to improve compliance with the IDEA, such as providing guidance to States in developing corrective action plans to remedy noncompliance. The commenters also suggested that the priority be more prescriptive about the data activities that the Center must provide.

Discussion: Under section 616(i)(2) of the IDEA, funds must be used to improve the capacity of States to meet the section 616 data collection requirements. Therefore, activities aimed at improving a State's compliance with the IDEA are allowable only to the extent that the activities improve the capacity of a State to meet the section 616 data requirements. For example, activities that help a State collect better section 616 data to demonstrate correction of noncompliance, or activities that help a State collect more accurate data through monitoring would be allowable. However, activities focused solely on correcting noncompliance or using data to improve program performance are not allowable.

Paragraph (c) in the priority provides examples of activities that the Center may conduct to improve States' data quality. We do

not agree that the priority should be more prescriptive about the types of activities that the Center must provide. Rather, we believe that the Center should have the flexibility to work with States and determine the activities that would be most appropriate, given each State's unique needs.

Changes: None.

Comment: One commenter requested that the priority place more emphasis on providing on-site technical assistance to States. Another commenter stated that more than 30 percent of the funds should be used to provide direct technical assistance to States.

Discussion: This new priority combines functions previously performed by two different entities under separate awards. Prior to issuing this priority, the Department analyzed the past level of effort expended by these entities for activities under paragraph (c), as well as their level of effort for other activities covered by this priority. We then applied that ratio to establish the requirement that 30 percent of the funds in this priority be spent on providing on-site technical assistance. We believe the priority provides the Center with the flexibility to work with States and to determine the activities that would be most appropriate, given each State's unique needs. At the same time, we believe that if the priority placed more emphasis on on-site technical assistance, other critical activities outside of paragraph (c) would suffer.

Changes: None.

Comment: One commenter urged that applicants be required to describe the services they will provide directly and those that will be provided by subcontractors.

Discussion: There is no requirement in this priority for applicants to contract with other organizations. It is up to applicants to describe in their applications the proposed services and key personnel. If an applicant chooses to contract with other organizations for certain activities, the activities of the contractors in support of the applicant should be described.

Changes: None.

Comment: One commenter recommended that the Center develop training modules on (a) reporting data to the public in a manner that is easily understood and accessible and (b) involving stakeholders in States' exercise of general supervision responsibilities.

Discussion: While we agree that stakeholder involvement and public reporting are important components of States' exercise of general supervision, they are not the focus of this priority. The funds supporting this priority can only be used to improve the capacity of States to meet the 616 data collection requirements.

Changes: None.

Comment: One commenter urged that the technical assistance activities listed in the priority include helping States (a) provide public report cards and data collection reports that are easily understood by the public, and (b) involve stakeholders in decision making related to these reports and data. The commenter also recommended that the technical assistance activities include assisting States to form stakeholder groups that include families to guide activities related to a State's Performance Plan (SPP).

Discussion: It is not clear how the activities proposed by the commenter will improve the capacity of the States to meet the section 616 data collection requirements. Activities directed solely at improving the reporting of data to the public or involving stakeholders in State activities would not be allowable activities under the priority.

Changes: None.

Comment: One commenter recommended that the priority include a requirement for data sharing and collaboration with the National Center on Dispute Resolution and other technical assistance centers.

Discussion: The purpose of this priority is to provide technical assistance to States to improve their data and data collection systems. Under the activities included in paragraph (a), the Center must develop and implement an annual strategic plan for

technical assistance and dissemination to improve State-reported data. Collaborating with other technical assistance centers will likely be a component of the strategic plan. However, we believe it would be inappropriate to require data sharing and collaboration with any specific technical assistance center and therefore, decline to change the priority in the manner suggested by the commenter.

Changes: None.

Note: This notice does not solicit applications. In any year in which we choose to use this priority, we invite applications through a notice in the Federal Register. When inviting applications, we designate the priority as absolute, competitive preference, or invitational. The effect of each type of priority follows:

Absolute priority: Under an absolute priority, we consider only applications that meet the priority (34 CFR 75.105(c)(3)).

Competitive preference priority: Under a competitive preference priority, we give competitive preference to an application by either (1) awarding additional points, depending on how well, or the extent to which, the application meets the competitive preference priority (34 CFR 75.105(c)(2)(i)); or (2) selecting an application that meets the competitive preference

priority over an application of comparable merit that does not meet the priority (34 CFR 75.105(c)(2)(ii)).

Invitational priority: Under an invitational priority, we are particularly interested in applications that meet the invitational priority. However, we do not give an application that meets the invitational priority a competitive or absolute preference over other applications (34 CFR 75.105(c)(1)).

PRIORITY:

Technical Assistance Center for Data Collection, Analysis, and Use for Accountability in Special Education and Early Intervention

Absolute Priority

The Assistant Secretary for Special Education and Rehabilitative Services establishes a priority for the funding of a Technical Assistance Center for Data Collection, Analysis, and Use for Accountability in Special Education and Early Intervention (Center) to provide: (1) technical assistance and information to States to help them provide high-quality data needed to implement Parts B and C of the IDEA and improve their data collection infrastructures; and (2) assistance to the Department regarding these data collections. The Center's activities and products must include, but are not limited to, the following:

(a) Develop and implement an annual strategic plan for technical assistance and dissemination to improve State-reported

data. At the end of each year, the Center must prepare and submit to the Department a summary and evaluation of its technical assistance and dissemination activities for the year;

(b) Design and conduct two national data managers' meetings each year of the project period, of approximately 100 participants each, to provide information and technical assistance to State Part B and C data managers. Both meetings must be held in the Washington, DC metropolitan area in facilities that are accessible to individuals with disabilities. The Center must arrange and pay for meeting rooms; honoraria and expenses for speakers; visual aids and print materials; and travel expenses, lodging, and per diem at government rates for one to two representatives from each State or reporting entity. The meetings must include both large-group and small-group sessions, as well as time for informal discussions. Topics for the meetings must include specific State-reported data problems identified during the year, methods of data collection and verification, updates on Federal reporting requirements, potential uses of data by States, and reports on other data collections specified by the Office of Special Education Programs (OSEP). Each meeting also must include a training session for new State data managers. After each meeting, the Center must prepare and disseminate a newsletter that summarizes meeting highlights and describes key presentations and handouts;

(c) Provide technical assistance and information to States to improve State data quality through activities such as: (1) developing data systems, including monitoring systems, that incorporate the collection and analysis of valid data to measure Statewide progress on State targets; (2) developing data systems, including monitoring systems, that incorporate the collection and analysis of valid data, to measure local progress on State targets; (3) interpreting and portraying data related to State targets, including data obtained through monitoring; (4) incorporating data analysis results into State and local strategies for improving performance under Parts B and C; (5) developing and revising measurable and rigorous targets based on data and input from stakeholder groups, for State Performance Plans (SPPs); (6) collecting and disseminating valid and reliable assessment data relative to State achievement standards; (7) developing technically-sound sampling plans for collecting valid and reliable data on SPP indicators that permit sampling; and (8) developing training modules for SEAs, State lead agencies, local educational agencies (LEAs) and early intervention service (EIS) programs that focus on collecting high-quality data;

(d) Develop and distribute to States: (1) annual updates of the Part B and Part C data dictionaries, data collection histories, and data fact sheets; (2) current State data system profiles

describing the types of systems employed by States including their efforts to ensure collection of high-quality data; (3) analyses of data provided by States under sections 616 and 618 of the IDEA addressing the process by which a State collects, enters, and verifies data; (4) based on State-reported data, a description and analysis of data trends relative to States' performance on their measurable and rigorous targets; (5) tables of annual State data organized to provide States with an enhanced perspective of their performance relative to other States; (6) data and other information for the Web site, www.IDEADATA.org; (7) analyses of Part B and Part C annual performance report data; (8) training modules for both State and local agencies that focus on collecting high-quality data; (9) documents, as needed by the Department, for meetings with the Education Information Management Advisory Committee (EIMAC), a standing committee of the Council of Chief State School Officers; (10) updated annual versions of the Early Intervention Data Handbook and supporting materials, as requested; (11) annual studies of extant data from other sources to analyze broad trends in the population characteristics of infants, toddlers, and children with disabilities, as requested by OSEP; and (12) other documents requested by the Department, including roughly five to seven ad hoc analyses per month;

(e) Provide direct interaction with, and support to, States by mail, telephone, online communication, video, or on-site visits, including providing customized technical assistance. The Center also must participate in the semi-annual EIMAC meetings and other meetings, as requested by the Department;

(f) Assist States to provide high-quality data to the Department's EDFacts system. The Center must log in data, check data for completeness and errors or anomalies, communicate with States to resolve any errors or anomalies, and prepare data notes on any unresolved problems. The Center also must provide monthly and annual data status reports to OSEP, including all data notes related to data reported through EDFacts;

(g) Assist the Department with developing forms for collecting data not submitted through EDFacts, such as data related to Part C of the IDEA. The Center also must prepare forms clearance packages for submission to the Office of Management and Budget (OMB). At the direction of OSEP, the Center must prepare responses to public comments received on proposed information collection packages and revise the forms, if necessary. As directed by OSEP, the Center must take the following steps in developing a new data collection form: (1) convene a task force of State representatives, relevant stakeholders, and Department personnel; (2) prepare a draft form based on the task force

recommendations; (3) pilot test the draft form; (4) revise the form as necessary; and (5) prepare the OMB clearance forms;

(h) Conduct an annual assessment of the operations and processes to collect section 618 data from States and make specific recommendations to OSEP to improve, enhance, or redesign current processes to meet the Department's needs for data collections in EDFacts. The annual study must consider the availability of new Internet and other technologies to collect and report data, as well as any new data needs;

(i) Establish, maintain, and meet at least annually with a national advisory group that will be responsible for providing annual feedback on the plans, activities, and accomplishments of the Center;

(j) Maintain ongoing communication with the OSEP Project Officer, including monthly conference calls. The Center must budget for a three-day Project Directors' meeting in Washington, DC during each year of the project, plus ten additional two-day trips annually to Washington, DC to attend national meetings and to meet with the OSEP Project Officer and other funded projects for purposes of cross-project collaboration and information exchange;

(k) Budget five percent of the award amount annually to support emerging needs as identified jointly through consultation with the OSEP project officer; and

(1) If the project maintains a Web site, include relevant information and documents in a format that meets a government or industry-recognized standard for accessibility.

Note: In each budget period of 12 months, approximately 30 percent of the effort under this priority must be devoted to activities and products described in paragraph (c) of the priority (technical assistance and information to States), and approximately 70 percent of the effort must be devoted to the remaining activities described in the priority.

Fourth and Fifth Years of the Project:

In deciding whether to continue funding the Center for the fourth and fifth years, the Secretary will consider the requirements of 34 CFR 75.253(a), and in addition--

(1) The recommendation of a review team consisting of experts selected by the Secretary, which review will be conducted in Washington, DC during the last half of the project's second year. The Center must budget for travel expenses associated with this one-day intensive review;

(2) The timeliness and effectiveness with which all requirements of the negotiated cooperative agreement have been, or are being, met by the Center; and

(3) Evidence of the degree to which the Center's activities have contributed to improvements in the quality of State-reported data.

• Applications received by Grants.gov are date and time stamped. Your application must be fully uploaded and submitted, and must be date and time stamped by the Grants.gov system no later than 4:30 p.m., Washington, DC time, on the application deadline date. Except as otherwise noted in this section, we will not consider your application if it is date and time stamped by the Grants.gov system later than 4:30 p.m., Washington, DC time, on the application deadline date. When we retrieve your application from Grants.gov, we will notify you if we are rejecting your application because it was date and time stamped by the Grants.gov system after 4:30 p.m., Washington, DC time, on the application deadline date.

• The amount of time it can take to upload an application will vary depending on a variety of factors, including the size of the application and the speed of your Internet connection.

Therefore, we strongly recommend that you do not wait until the application deadline date to begin the submission process through Grants.gov.

- You should review and follow the Education Submission Procedures for submitting an application through Grants.gov that are included in the application package for this competition to ensure that you submit your application in a timely manner to the Grants.gov system. You can also find the Education Submission Procedures pertaining to Grants.gov at <http://e-Grants.ed.gov/help/GrantsgovSubmissionProcedures.pdf>

- To submit your application via Grants.gov, you must complete the steps in the Grants.gov registration process (http://www.grants.gov/applicants/get_registered.jsp). These steps include (1) registering your organization, a multi-part process that includes registration with the Central Contractor Registry (CCR); (2) registering yourself as an Authorized Organization Representative (AOR); and (3) getting authorized as an AOR by your organization. Details on these steps are outlined in the Grants.gov 3-Step Registration Guide (see <http://www.grants.gov/section910/Grants.govRegistrationBrochure.pdf>). You also must provide on your application the same D-U-N-S Number used with this registration. Please note that the registration process may take five or more business days to complete, and you must have completed all registration steps to allow you to successfully submit an application via Grants.gov. In

addition you will need to update your CCR registration on an annual basis. This may take three or more business days to complete.

- You will not receive additional point value because you submit your application in electronic format, nor will we penalize you if you submit your application in paper format.

- If you submit your application electronically, you must submit all documents electronically, including all information you typically provide on the following forms: Application for Federal Assistance (SF 424), the Department of Education Supplemental Information for SF 424, Budget Information--Non-Construction Programs (ED 524), and all necessary assurances and certifications. Please note that two of these forms--the SF 424 and the Department of Education Supplemental Information for SF 424--have replaced the ED 424 (Application for Federal Education Assistance).

- If you submit your application electronically, you must attach any narrative sections of your application as files in a .DOC (document), .RTF (rich text), or .PDF (Portable Document) format. If you upload a file type other than the three file types specified in this paragraph or submit a password-protected file, we will not review that material.

- Your electronic application must comply with any page limit requirements described in this notice.

- After you electronically submit your application, you will receive from Grants.gov an automatic notification of receipt that contains a Grants.gov tracking number. (This notification indicates receipt by Grants.gov only, not receipt by the Department.) The Department then will retrieve your application from Grants.gov and send a second notification to you by e-mail. This second notification indicates that the Department has received your application and has assigned your application a PR/Award number (an ED-specified identifying number unique to your application).

- We may request that you provide us original signatures on forms at a later date.

Application Deadline Date Extension in Case of System Technical Issues with the Grant.Gov System: If you are experiencing problems submitting your application through Grants.gov, please contact the Grants.gov Support Desk at 1-800-518-4726. You must obtain a Grants.gov Support Desk Case Number and must keep a record of it.

If you are prevented from electronically submitting your application on the application deadline date because of technical problems with the Grants.gov system, we will grant you an extension until 4:30 p.m., Washington, DC time, the following business day to enable you to transmit your application electronically or by hand delivery. You also may mail your application by following the mailing instructions described elsewhere in this notice.

If you submit an application after 4:30 p.m., Washington, DC time, on the application deadline date, please contact the person listed elsewhere in this notice under For Further Information Contact and provide an explanation of the technical problem you experienced with Grants.gov, along with the Grants.gov Support Desk Case Number. We will accept your application if we can confirm that a technical problem occurred with the Grants.gov system and that that problem affected your ability to submit your application by 4:30 p.m., Washington, DC time, on the application deadline date. The Department will contact you after a determination is made on whether your application will be accepted.

Note: The extensions to which we refer in this section apply only to the unavailability of, or technical problems with, the Grants.gov system. We will not grant you an extension if you failed to fully register to submit your application to Grants.gov before the application deadline date and time or if the technical problem you experienced is unrelated to the Grants.gov system.

V. Application Review Information

1. Selection Criteria: The selection criteria for this competition are from 34 CFR 75.210 and are listed in the application package.

2. Review and Selection Process:

Treating A Priority As Two Separate Competitions: In the past, there have been problems in finding peer reviewers without conflicts of interest for competitions in which many entities throughout the country submit applications. The Standing Panel requirements under IDEA also have placed additional constraints on the availability of reviewers. Therefore, the Department has determined that, for some discretionary competitions, applications may be separated into two or more groups and ranked and selected for funding within the specific group. This procedure will ensure the availability of a much larger group of reviewers without conflicts of interest. It also will increase the quality, independence and fairness of the review process and permit panel members to review applications under discretionary competitions for

which they have also submitted applications. However, if the Department decides to select for funding an equal number of applications in each group, this may result in different cut-off points for fundable applications in each group.

VI. Award Administration Information

1. Award Notices: If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notice (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. Administrative and National Policy Requirements: We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section of this notice.

We reference the regulations outlining the terms and conditions of an award in the Applicable Regulations section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. Reporting: At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most

current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>

4. Performance Measures: To evaluate the overall success of the project funded under this competition, the Department will determine at the end of the performance period whether the grantee has improved the capacity of States to meet data collection requirements under section 616 of the IDEA. The grantee will also be required to report information on project performance in its annual reports to the Department. (34 CFR 75.590)

IMPORTANT – PLEASE READ FIRST
U.S. Department of Education
Grants.gov Submission Procedures and Tips for Applicants

To facilitate your use of Grants.gov, this document includes important submission procedures you need to be aware of to ensure your application is received in a timely manner and accepted by the Department of Education.

ATTENTION – Microsoft Vista and Word 2007 Users

Please note that Grants.gov does not currently support the new Microsoft Vista Operating system. The PureEdge software used by Grants.gov for forms is not compatible with Vista. Grants.gov will be reviewing this new product to determine if it can be supported in the future.

In addition, the new version of Microsoft Word saves documents with the extension .DOCX. The Grants.gov system does not process Microsoft Word documents with the extension .DOCX. When submitting Microsoft Word attachments to Grants.gov, please use the version of Microsoft Word that ends in .DOC. If you have any questions regarding this matter please email the Grants.gov Contact Center at support@grants.gov or call 1-800-518-4726.

REGISTER EARLY – Grants.gov registration may take five or more business days to complete. You may begin working on your application while completing the registration process, but you cannot submit an application until all of the Registration steps are complete. For detailed information on the Registration Steps, please go to: http://www.grants.gov/applicants/get_registered.jsp. [Note: Your organization will need to update its Central Contractor Registry (CCR) registration annually.]

SUBMIT EARLY – We strongly recommend that you do not wait until the last day to submit your application. Grants.gov will put a date/time stamp on your application and then process it after it is fully uploaded. The time it takes to upload an application will vary depending on a number of factors including the size of the application and the speed of your Internet connection, and the time it takes Grants.gov to process the application will vary as well. If Grants.gov rejects your application (see step three below), you will need to resubmit successfully before 4:30 pm on the deadline date.

Note: To submit successfully, you must provide the DUNS number on your application that was used when your organization registered with the CCR (Central Contractor Registry).

VERIFY SUBMISSION IS OK – You will want to verify that Grants.gov and the Department of Education receive your Grants.gov submission timely and that it was validated successfully. To see the date/time your application was received, login to Grants.gov and click on the Track My Application link. For a successful submission, the date/time received should be earlier than 4:30 p.m. on the deadline date, AND the application status should be: Validated, Received by Agency, or Agency Tracking Number Assigned.

If the date/time received is later than 4:30 p.m. Washington, D.C. time, on the closing date, your application is late. If your application has a status of “Received” it is still awaiting validation by Grants.gov. Once validation is complete, the status will either change to “Validated” or “Rejected with Errors.” If the status is “Rejected with Errors,” your application has not been received successfully. Some of the reasons Grants.gov may reject an application can be found on the Grants.gov site: http://www.grants.gov/help/submit_application_faqs.jsp#10. For more detailed information on why an application may be rejected, you can review Application Error Tips <http://www.grants.gov/section910/ApplicationErrorTips.pdf>. If you discover your application is late or has been rejected, please see the instructions below. Note: You will receive a series of confirmations both online and via e-mail about the status of your application. Please do not rely solely on e-mail to confirm whether your application has been received timely and validated successfully.

Submission Problems – What should you do?

If you have problems submitting to Grants.gov before the closing date, please contact Grants.gov Customer Support at 1-800-518-4726 or use the customer support available on the Web site:

http://www.grants.gov/applicants/applicant_help.jsp.

If electronic submission is optional and you have problems that you are unable to resolve before the deadline date and time for electronic applications, please follow the transmittal instructions for hard copy applications in the Federal Register notice and get a hard copy application postmarked by midnight on the deadline date.

If electronic submission is required, you must submit an electronic application before 4:30 p.m., unless you follow the procedures in the Federal Register notice and qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. (See the Federal Register notice for detailed instructions.)

Helpful Hints When Working with Grants.gov

Please note, once you download an application from Grants.gov, you will be working offline and saving data on your computer. Please be sure to note where you are saving the Grants.gov file on your computer. You will need to logon to Grants.gov to upload and submit the application. **You must provide on your application the DUNS number that was used when your organization registered with the CCR.**

Please go to http://www.grants.gov/applicants/applicant_help.jsp for help with Grants.gov. For additional tips related to submitting grant applications, please refer to the Grants.gov Submit Application FAQs found on the Grants.gov http://www.grants.gov/help/submit_application_faqs.jsp.

Dial-Up Internet Connections

When using a dial up connection to upload and submit your application, it can take significantly longer than when you are connected to the Internet with a high-speed connection, e.g. cable modem/DSL/T1. While times will vary depending upon the size of your application, it can take a few minutes to a few hours to complete your grant submission using a dial up connection. **If you do not have access to a high-speed connection and electronic submission is required, you may want to consider following the instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date. (See the Federal Register notice for detailed instructions.)**

MAC Users

If you do not have a Windows operating System, you will need to use the Citrix solution discussed on Grants.gov or a Windows Emulation program to submit an application using Grants.gov. For additional information, review the FAQs for non-windows users http://www.grants.gov/resources/download_software.jsp#non_window. Also, to view white paper for Macintosh users published by Pure Edge go to the following link: <http://www.grants.gov/section678/PureEdgeSupportforMacintosh.pdf>, and/or contact Grants.gov Customer Support (<http://www.grants.gov/contactus/contactus.jsp>) for more information. **If electronic submission is required and you are concerned about your ability to submit electronically as a non-windows user, please follow instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date. The Center's activities and products must include, but are not limited to, the following:

(a) Develop and implement an annual strategic plan for technical assistance and dissemination to improve State-reported data. At the end of each year, the Center must prepare and submit to the Department a summary and evaluation of its technical assistance and dissemination activities for the year;

Both meetings must be held in the Washington, DC metropolitan area in facilities that are accessible to individuals with disabilities. The Center must arrange and pay for meeting rooms; honoraria and expenses for speakers; visual aids and print materials; and travel expenses, lodging, and per diem at government rates for one to two representatives from each State or reporting entity. Each meeting also must include a training session for new State data managers. After each meeting, the Center must prepare and disseminate a newsletter that summarizes meeting highlights and describes key presentations and handouts;

(c) Provide technical assistance and information to States to improve State data quality through activities such as: (1) developing data systems, including monitoring systems, that incorporate the collection and analysis of valid data to measure Statewide progress on State targets; (2) developing data systems, including monitoring systems, that incorporate the collection and analysis of valid data, to measure local progress on State targets; (3) interpreting and portraying data related to State targets, including data obtained through monitoring; (4) incorporating data analysis results into State and local strategies for improving performance under Parts B and C; (5) developing and revising measurable and rigorous targets based on data

(e) Provide direct interaction with, and support to, States by mail, telephone, online communication, video, or on-site visits, including providing customized technical assistance. The Center also must participate in the semi-annual EIMAC meetings and other meetings, as requested by the Department;

(f) Assist States to provide high-quality data to the Department's EDFacts system. The Center must log in data, check data for completeness and errors or anomalies, communicate with States to resolve any errors or anomalies, and prepare data notes on any unresolved problems. The Center also must provide monthly and annual data status reports to OSEP, including all data notes related to data reported through EDFacts;

(g) Assist the Department with developing forms for collecting data not submitted through EDFacts, such as data related to Part C of the IDEA. The Center also must prepare forms clearance packages for submission to the Office of Management and Budget (OMB). At the direction of OSEP, the Center must prepare responses to public comments received on proposed information collection packages and revise the forms, if necessary. As directed by OSEP, the Center must take the following steps in developing a new data collection form: (1) convene a task force of State representatives, relevant stakeholders, and Department personnel; (2) prepare a draft form based on the task force recommendations; (3) pilot test the draft form; (4) revise the form as necessary; and (5) prepare the OMB clearance forms;

(h) Conduct an annual assessment of the operations and processes to collect section 618 data from States and make specific recommendations to OSEP to improve, enhance, or redesign current processes to meet the Department's needs for data collections in EDFacts. The annual study must consider the availability of new Internet and other technologies to collect and report data, as well as any new data needs;

(i) Establish, maintain, and meet at least annually with a national advisory group that will be responsible for providing annual feedback on the plans, activities, and accomplishments of the Center;

(j) Maintain ongoing communication with the OSEP Project Officer, including monthly conference calls. (k) Budget five percent of the award amount annually to support emerging needs as identified jointly through consultation with the OSEP project officer; and

(l) If the project maintains a Web site, include relevant information and documents in a format that meets a government or industry-recognized standard for accessibility.

Note: In each budget period of 12 months, approximately 30 percent of the effort under this priority must be devoted to activities and products described in paragraph (c) of the priority (technical assistance and information to States), and approximately 70 percent of the effort must be devoted to the remaining activities described in the priority.

Fourth and Fifth Years of the Project:

In deciding whether to continue funding the Center for the fourth and fifth years, the Secretary will consider the requirements of 34 CFR 75.253(a), and in addition--

(1) The recommendation of a review team consisting of experts selected by the Secretary, which review will be conducted in Washington, DC during the last half of the project's second year. The Center must budget for travel expenses associated with this one-day intensive review;

(2) The timeliness and effectiveness with which all requirements of the negotiated cooperative agreement have been, or are being, met by the Center; and

(3) Evidence of the degree to which the Center's activities have contributed to improvements in the quality of State-reported data.

Program Authority: 20 U.S.C. 1411 and 1416.

PERFORMANCE MEASURES: To evaluate the overall success of the project funded under this competition, the Department will determine at the end of the performance period whether the grantee has improved the capacity of States to meet data collection requirements under section 616 of the IDEA. SELECTION CRITERIA AND FORMAT FOR THE TECHNICAL ASSISTANCE ON STATE DATA COLLECTION--TECHNICAL ASSISTANCE CENTER FOR DATA COLLECTION, ANALYSIS, AND USE FOR ACCOUNTABILITY IN SPECIAL EDUCATION AND EARLY INTERVENTION COMPETITION

Part III of the application form requires a narrative that addresses the selection criteria that will be used by reviewers in evaluating individual proposals. Applications are more likely to receive favorable reviews by panels when they are organized according to the format suggested below. This format was published in the FEDERAL REGISTER as an appendix to the program regulations, and it addresses all the selection criteria used to evaluate applications required by regulations. If you prefer to use a different format, you may wish to cross-reference the sections of your application to the selection criteria to be sure that reviewers are able to find all relevant information.

The selection criteria that will be used to evaluate applications submitted to the **TECHNICAL ASSISTANCE ON STATE DATA COLLECTION--TECHNICAL ASSISTANCE CENTER FOR DATA COLLECTION, ANALYSIS, AND USE FOR ACCOUNTABILITY IN SPECIAL EDUCATION AND EARLY INTERVENTION** competition are the selection criteria for new grants required by the EDGAR general selection criteria menu. The maximum score for all of the criteria is 100 points.

A two-page **abstract** should precede the application narrative. The application narrative should include the following sections in this order:

(a) Significance. (25 points)

- (1) The Secretary considers the significance of the proposed project.

GENERAL INFORMATION
ON COMPLETING
AN APPLICATION

FORMAT FOR APPLICATIONS

The application narrative (Part III of the application form) should be organized to follow the exact sequence of the components in the selection criteria used to evaluate applications. (The selection criteria for the competitions covered by this packet are listed following the specific competition information in section “B” of this packet.) A table of contents, list of priority requirements, and a two-page abstract summarizing the objectives, activities, project participants, and expected outcomes of the proposed project should precede the application narrative. If you prefer to use a different format, you may wish to cross-reference the sections of your application to the selection criteria to be sure that reviewers are able to find all relevant information.

To aid in screening and reviewing the application, applicants should list in Part II and prior to the abstract, all general, special, and other requirements for the priority and corresponding page number (s) where requirements are addressed within the application. Page limits do not apply to this list. (All requirements are found in each priority description included in this application package.) The format included below is an example of how you might provide this information in your application.

Page #	Requirements
_____	(a) Projects funded under this notice must make positive efforts to employ and advance in employment qualified individuals with disabilities in project activities. (See Section 606 of IDEA)
_____	(b) Applicants and grant recipients funded under this notice must involve individuals with disabilities or parents of individuals with disabilities ages birth through 26 in planning, implementing, and evaluating the projects. (See Section 682(a)(1)(A) of IDEA)
_____	(c) Applicant must describe steps to ensure equitable access to, and participation in, its program for students, teachers, and other program beneficiaries with special needs. (See Section 427, GEPA)
_____	(d) Projects funded under these priorities must budget for a three-day Project’s Directors’ meeting in Washington, D.C. during each year of the project.

PROGRAM ABSTRACT

The program abstract should not exceed two pages in length. It would be helpful if it included; the title of the program, the name of the Absolute Priority, and the CFDA Number (e.g., 84.373Y, etc.).

NARRATIVE

Applications should be concise and clearly written. The application narrative (Part III of the application) is where you, the applicant, address the selection criteria that reviewers use to evaluate your application. You must limit Part III to the equivalent of no more than 70 pages. The narrative must be single-sided, double-spaced pages printed in 12 point font or larger. The page limitation does not include the title page, Application for Federal Assistance (SF 424), two-page abstract, the budget summary form (ED 524) and the narrative budget justification, any curriculum vitae, the bibliography of literature cited, or the GEPA statement, assurances, and certifications.

Before preparing the narrative, applicants should review the closing date notice, program statute, and any notice of final priorities for specific guidance or requirements. Note that applications will be evaluated according to the selection criteria specified in the closing date notice or in this package.

A strong evaluation plan should be included in the application narrative and should be used, as appropriate, to shape the development of the project from the beginning of the grant period. The plan should include benchmarks to monitor progress toward specific project objectives and also outcome measures to assess the impact on teaching and learning or other important outcomes for project participants. More specifically, the plan should identify the individual and/or organization that have agreed to serve as evaluator for the project and describe the qualifications of that evaluator. The plan should describe the evaluation design, indicating: (1) what types of data will be collected; (2) when various types of data will be collected; (3) what methods will be used; (4) what instruments will be developed and when; (5) how the data will be analyzed; (6) when reports of results and outcomes will be available; and (7) how the applicant will use the information collected through the evaluation to monitor progress of the funded project and to provide accountability information both about success at the initial site and effective strategies for replication in other settings. Applicants are encouraged to devote an appropriate level of resources to project evaluation.

Successful applicants will be expected to report annually on the progress of each project or study included in the grant, including a description of preliminary or key findings and an explanation of any changes in goals, objectives, methodology, or planned products or publications.

Appendix

Intergovernmental Review of Federal Programs

This appendix applies to each program that is subject to the requirements of Executive Order 12372 (Intergovernmental Review of Federal Programs) and the regulations in 34 CFR part 79.

The objective of the Executive order is to foster an intergovernmental partnership and to strengthen federalism by relying on State and local processes for State and local government coordination and review of proposed Federal financial assistance.

Applicants must contact the appropriate State Single Point of Contact to find out about, and to comply with, the State's process under Executive Order 12372. Applicants proposing to perform activities in more than one State should immediately contact the Single Point of Contact for each of those States and follow the procedure established in each of those States under the Executive order. A listing containing the Single Point of Contact for each State is included in this appendix.

In States that have not established a process or chosen a program for review, State, areawide, regional, and local entities may submit comments directly to the Department.

Any State Process Recommendation and other comments submitted by a State Single Point of Contact and any comments from State, areawide, regional, and local entities must be mailed or hand-delivered by the date indicated in the actual application notice to the following address: The Secretary, EO 12372--CFDA# [commenter must insert number--including suffix letter, if any], U.S. Department of Education, room 7W301, 400 Maryland Avenue, SW., Washington, DC 20202.

Proof of mailing will be determined on the same basis as applications (see 34 CFR 75.102). Recommendations or comments may be hand-delivered until 4:30 p.m. (Washington, DC time) on the date indicated in the actual application notice.

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS COMPLETED APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.

STATE SINGLE POINTS OF CONTACT (SPOCs)

It is estimated that in 2004 the Federal Government will outlay \$400 billion in grants to State and local governments. Executive Order 12372, "Intergovernmental Review of Federal Programs," was issued with the desire to foster the intergovernmental partnership and strengthen federalism by relying on State and local processes for the coordination and review of proposed Federal financial assistance and direct Federal development. The Order allows each State to designate an entity to perform this function. Below is the official list of those entities. For those States that have a home page for their designated entity, a direct link has been provided on the official version:
<http://www.whitehouse.gov/omb/grants/spoc.html>.

States that are not listed on this page have chosen not to participate in the intergovernmental review process, and therefore do not have a SPOC. If you are located within one of these States, you may still send application materials directly to a Federal awarding agency.

Contact information for Federal agencies that award grants can be found in [The Catalog of Federal Domestic Assistance Catalog Contents Page](#). You can access Appendix IV by Agency [http://12.46.245.173/CFDA/appx4_web.pdf] or by State [http://12.46.245.173/CFDA/appx4_web_state.pdf].

NOTICE TO ALL APPLICANTS
(ENSURING EQUITABLE ACCESS)
AND
APPLICATION FORMS AND INSTRUCTIONS

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity.

The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.
- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Estimated Burden Statement for GEPA Requirements

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. INSTRUCTIONS FOR

DEPARTMENT OF EDUCATION SUPPLEMENTAL INFORMATION FOR SF 424

1. Project Director. Name, address, telephone and fax numbers, and e-mail address of the person to be contacted on matters involving this application.

2. Novice Applicant. Check “Yes” or “No” only if assistance is being requested under a program that gives special consideration to novice applicants. Otherwise, **leave blank.**

Check “Yes” if you meet the requirements for novice applicants specified in the regulations in 34 CFR 75.225 and included on the attached page entitled “Definitions for Department of Education Supplemental Information for SF 424.” By checking “Yes” the applicant certifies that it meets these novice applicant requirements. Check “No” if you do not meet the requirements for novice applicants.

3. Human Subjects Research. (See I. A. “Definitions” in attached page entitled “Definitions for Department of Education Supplemental Information For SF 424.”)

If Not Human Subjects Research. Check “No” if research activities involving human subjects are not planned at any time during the proposed project period. The remaining parts of Item 3 are then not applicable.

If Human Subjects Research. Check “Yes” if research activities involving human subjects are planned at any time during the proposed project period, either at the applicant organization or at any other performance site or collaborating institution. Check “Yes” even if the research is exempt from the regulations for the protection of human subjects. (See I. B. “Exemptions” in attached page entitled “Definitions for Department of Education Supplemental Information For SF 424.”)

3a. If Human Subjects Research is Exempt from the Human Subjects Regulations. Check “Yes” if all the research activities proposed are designated to be exempt from the regulations. Insert the exemption number(s) corresponding to one or more of the six exemption categories listed in I. B. “Exemptions.” In addition, follow the instructions in II. A. “Exempt Research Narrative” in the attached page entitled “Definitions for Department of Education Supplemental Information For SF 424.”

3a. If Human Subjects Research is Not Exempt from Human Subjects Regulations. Check “No” if some or all of the planned research activities are covered (not exempt). In addition, follow the instructions in II. B. “Nonexempt Research Narrative” in the page entitled “Definitions for Department of Education Supplemental Information For SF 424

3a. Human Subjects Assurance Number. If the applicant has an approved Federal Wide (FWA) on file with the Office for Human Research Protections (OHRP), U.S. Department of Health and Human Services, that covers the specific activity, insert the number in the space provided. If the applicant does not have an approved assurance on file with OHRP, enter “None.” In this case, the applicant, by signature on the SF-424, is declaring that it will comply with 34 CFR 97 and proceed to obtain the human subjects assurance upon request by the designated ED official. If the application is recommended/selected for funding, the designated ED official will request that the applicant obtain the assurance within 30 days after the specific formal request.

Note about Institutional Review Board Approval. ED does not require certification of Institutional Review Board approval with the application. However, if an application that involves non-exempt human subjects research is recommended/selected for funding, the designated ED official will request that the applicant obtain and send the certification to ED within 30 days after the formal request.

(Attachment to Instructions for Supplemental Information for SF 424)

Definitions:

Novice Applicant (See 34 CFR 75.225). For discretionary grant programs under which the Secretary gives special consideration to novice applications, a novice applicant means any applicant for a grant from ED that—

- Has never received a grant or subgrant under the program from which it seeks funding;
- Has never been a member of a group application, submitted in accordance with 34 CFR 75.127-75.129, that received a grant under the program from which it seeks funding; and

For the purposes of this requirement, a grant is active until the end of the grant's project or funding period, including any extensions of those periods that extend the grantee's authority to obligate funds.

In the case of a group application submitted in accordance with 34 CFR 75.127-75.129, a group includes only parties that meet the requirements listed above.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as “a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge.” *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” *(1) If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met. (2) If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the **only** involvement of human subjects will be in one or more of the following six categories of **exemptions** are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. ***If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed.*** [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview

procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked “Yes” for Item 3 of Department of Education Supplemental Information for SF 424, the applicant must provide a human subjects “exempt research” or “nonexempt research” narrative. Insert the narrative(s) in the space provided. If you have multiple projects and need to provide more than one narrative, be sure to label each set of responses as to the project they address.

A. Exempt Research Narrative.

If you marked “Yes” for item 3 a. and designated exemption numbers(s), provide the “exempt research” narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked “No” for item 3 a. you must provide the “nonexempt research” narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) Human Subjects Involvement and Characteristics:

Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and

health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable

(2) **Sources of Materials:** Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) **Recruitment and Informed Consent:** Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) **Potential Risks:** Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) **Protection Against Risk:** Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) **Importance of the Knowledge to be Gained:** Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) **Collaborating Site(s):** If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

Copies of the Department of Education’s Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff, Office of the Chief Financial Officer, U.S. Department of Education, Washington, D.C. 20202-4250, telephone: (202) 245-6120, and on the U.S. Department of Education’s Protection of Human Subjects in Research Web Site: <http://www.ed.gov/about/offices/list/OCFO/humansub.html>

Section C - Budget Narrative [Attach separate sheet(s)] Pay attention to applicable program specific instructions if attached.

1. Provide an itemized budget breakdown, and justification by project year, for each budget category listed in Sections A and B. For grant projects that will be divided into two or more separately budgeted major activities or sub-projects, show for each budget category of a project year the breakdown of the specific expenses attributable to each sub-project or activity.
2. If applicable to this program, provide the rate and base on which fringe benefits are calculated.
3. If you are requesting reimbursement for indirect costs on line 10, this information is to be completed by your Business Office. Specify the estimated amount of the base to which the indirect cost rate is applied and the total indirect expense.

Depending on the grant program to which you are applying and/or your approved Indirect Cost Rate Agreement, some direct cost budget categories in your grant application budget may not be included in the base and multiplied by your indirect cost rate. For example, you must multiply the indirect cost rates of "Training grants" (34 CFR 75.562) and grants under programs with "Supplement not Supplant" requirements ("Restricted Rate" programs) by a "modified total direct cost" (MTDC) base (34 CFR 75.563 or 76.563). Please indicate which costs are included and which costs are excluded from the base to which the indirect cost rate is applied.

When calculating indirect costs (line 10) for "Training grants" or grants under "Restricted Rate" programs, you must refer to the information and examples on ED's website at:
<http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

You may also contact (202) 377-3838 for additional information regarding calculating indirect cost rates or general indirect cost rate information.

**NOTICE TO ALL APPLICANTS:
Program Performance Measures Under The Government Performance
And Results Act (GPRA)**

What is GPRA

The Government Performance and Results Act of 1993 is a straightforward statute that requires all Federal agencies to manage their activities with attention to the consequences of those activities. Each agency is to clearly state what it intends to accomplish, identify the resources required, and periodically report its progress to the Congress. In doing so, it is expected that GPRA will contribute to improvements in accountability for the expenditures of public funds, improve Congressional decision-making through more objective information on the effectiveness of Federal programs, and promote a new government focus on results, service delivery, and customer satisfaction.

How has the United States Department of Education responded to the GPRA Requirements?

As required by GPRA, the United States Department of Education (the Department) has prepared a strategic plan for 2002-2007. This plan reflects the Department's priorities and integrates them with its mission and program authorities and describes how the Department will work to improve education for all children and adults in the United States. The Department's goals, as listed in the plan, are:

- Goal 1:** **Create a Culture of Achievement:** Create a culture of achievement throughout the nation's education system by effectively implementing the new law, the No Child Left Behind Act of 2001, and by basing all federal education programs on its principles: accountability, flexibility, expanded parental options and doing what works.
- Goal 2:** **Improve Student Achievement:** Improve student achievement for all groups of students by putting reading first, expanding high-quality mathematics and science teaching, reforming high schools, and boosting teacher and principal quality, thereby closing the achievement gap.
- Goal 3:** **Develop Safe Schools and Strong Character:** Establish disciplined and drug-free education environments that foster the development of good character and citizenship.
- Goal 4:** **Transform Education into an Evidence-based Field:** Strengthen the quality of education research.
- Goal 5:** **Enhance the Quality of and Access to Postsecondary and Adult Education:** Increase opportunities for students and the effectiveness of institutions.
- Goal 6:** **Establish Management Excellence:** Create a culture of accountability throughout the Department of Education.

The ninth digit of each number is the check digit, which is mathematically related to the other digits. It lets computer systems determine if a D-U-N-S Number has been entered correctly.

Dun & Bradstreet, a global information services provider, has assigned D-U-N-S numbers to over 43 million companies worldwide.
